👤 jessicamlored

📍 Kansas City, MO

Product design leader with 15+ years building and scaling digital learning platforms. Specializes in design strategy, systems thinking, and cross-functional leadership in ambiguous environments. Known for creating clarity, elevating teams, and delivering scalable solutions for educators and learners. Brings senior design leadership combined with counseling psychology training to foster inclusive team cultures and outcome-driven product vision.

EXPERIENCE

Senior Manager, Product Design - Director-Level Scope

Product Design Lead for Experience, Educators & Students

📅 Discovery Education

📅 Jul 2023 - Present

- Lead and manage 8+ designers (5 Product Designers, Design Ops Lead, Visual Designer, UX Contractors) across multiple product areas
- Owned design strategy and execution for a large, cross-portfolio initiative impacting educators, students, and internal teams
- Partnered directly with VP Product, VP Engineering, and VP Curriculum to shape roadmap priorities and resourcing decisions
- Influenced product direction through prototyping and validation, preventing an estimated \$300K ARR loss
- Translate complex product and organizational constraints into clear design direction and decision frameworks
- Represent Design in executive-level conversations; influence without authority in matrixed environments
- Drive cross-functional alignment across Product, Engineering, Research, and Curriculum in highly ambiguous problem spaces
- Lead design operations by improving team efficiency, prioritization clarity, and strengthening team culture
- Established and scaled design operating rhythms (critiques, planning, feedback loops, cross-team alignment) across the design org
- Lead hiring, onboarding, coaching, and performance management; elevated multiple designers to next-level readiness

Senior Product Designer

Product Design Lead for Student Experience

📅 Discovery Education

📅 Aug 2021 - Mar 2023

- Led major redesigns of student learning experiences across platform initiatives
- Facilitated cross-functional workshops and alignment around user needs and platform strategy
- Delivered high-impact features improving usability and engagement
